

First announcement and invitation

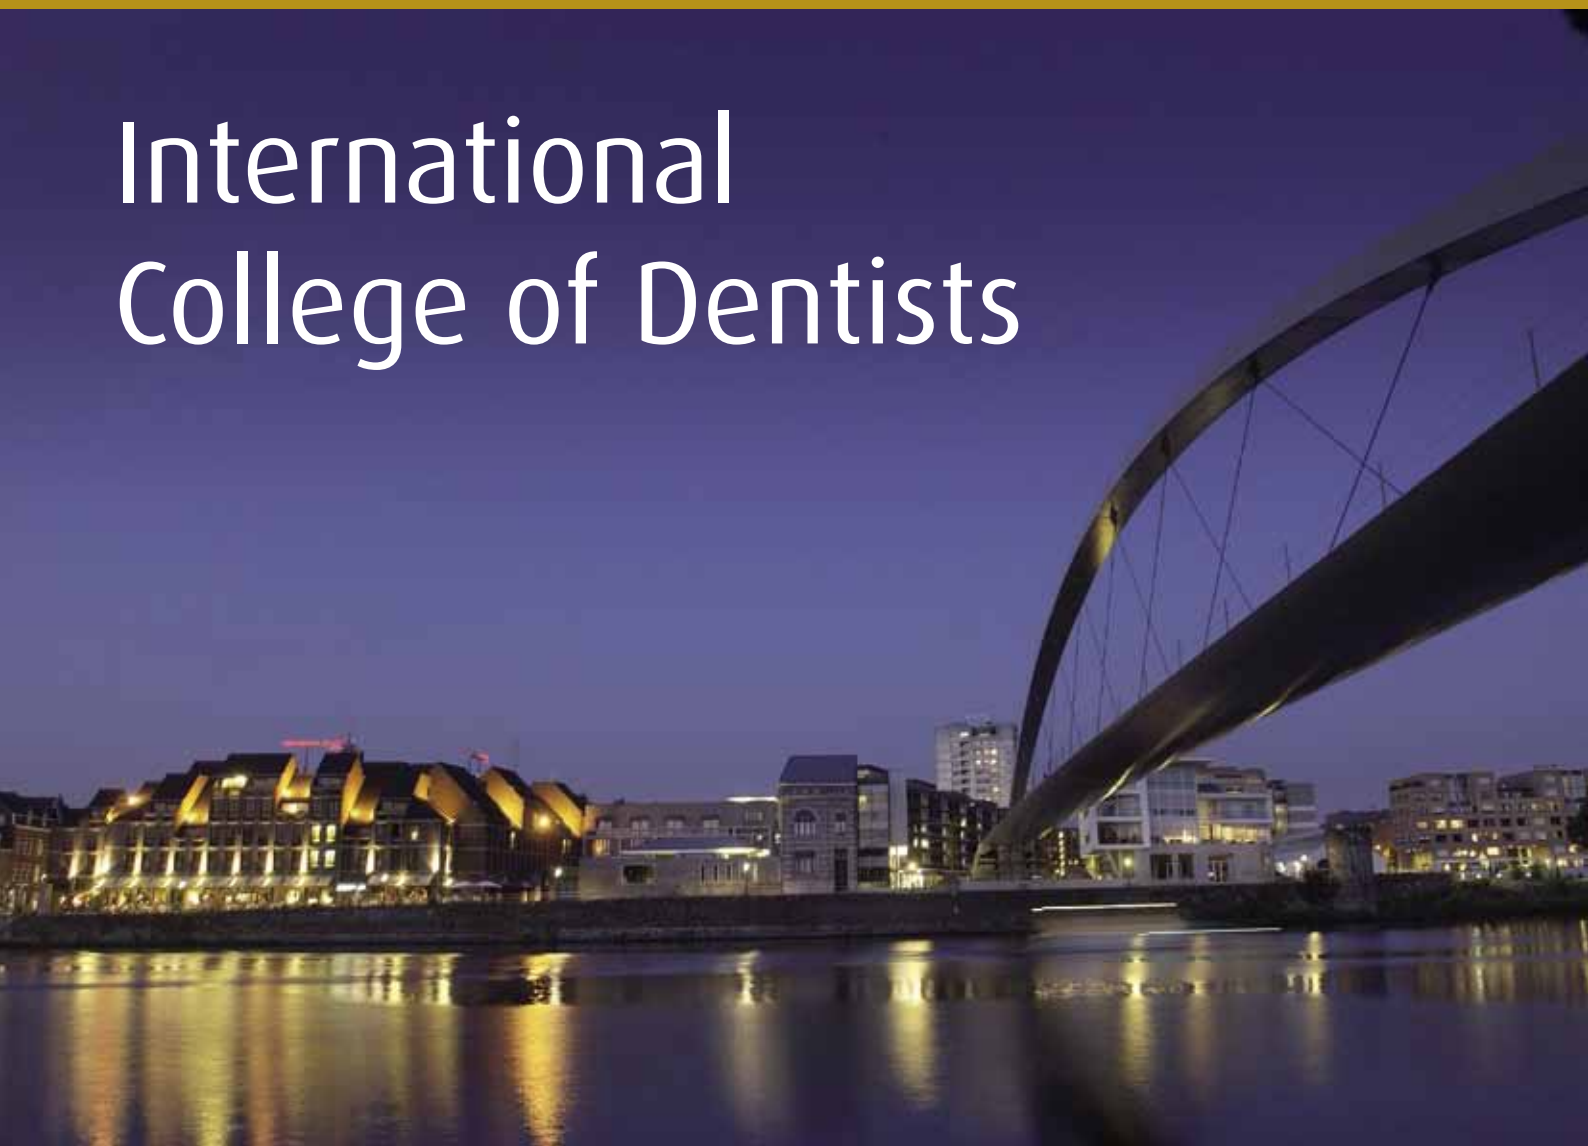

55th Annual Meeting, European Section

Maastricht, The Netherlands

Wednesday, Thursday, Friday, Saturday
16th through 19th June 2010

International College of Dentists

“Back to the roots of dental health”

Preventive Dentistry & Oral Health: the building blocks of Dental Aid

WELCOME TO MAASTRICHT

Dear Fellow Members.

It is a great honour and pleasure for me to invite you to participate in the 55th Annual Meeting of the European Section of the ICD.

The scientific program is entitled: "Back to the roots of Dental Health" and has been chosen to contribute to and to elucidate on some of the prominent activities by the European Section like the post-graduate training in East Europe. Consideration will also be given to Flexible Learning Platforms (Distant Learning) and how it can improve these aims not only in our Section but also in Dental Aid Programs Worldwide.

The 'European Allure' of the Historic and International oriented town Maastricht as the venue for our meeting

reflects the ongoing attention in the European Section to continuing growth, especially by spreading into the Eastern part of Europe.

In addition you will experience Maastricht as a magnificent and splendid town to embrace and host the European Section for its Social Events to celebrate its 11th Lustrum Meeting and to provide the perfect atmosphere to meet new Fellows and renew old friendships.

Frans H.M. Kroon,
President European Section
ICD 2010

SCIENTIFIC PROGRAM

“ BACK TO THE ROOTS OF DENTAL HEALTH ”

Preventive Dentistry & Oral Health: the building blocks of Dental Aid.

The predominant role of the current knowledge of Preventive Dentistry & Oral Health and the needs of optimal structured (Distant Learning) Teaching Programs and Dental Aid Programs, will be elucidated by three Internationally well known Dutch Experts as 'Keynote Speakers'.

- **On the subject of Caries & Preventive Dentistry** Prof. Dr. J. M. ten Cate
- **On the subject of Saliva and Oral-Health** Prof. Dr. A. van Nieuw Amerongen
- **On the subject of Dental Aid Programs** Prof. Dr. W. H. van Palenstein Helderman

We are highly convinced that these Experts can lead us to an 'Open Forum Discussion' in which the participants can debate about the need and the role of Teaching Programs in general as well as more specifically about our task as European ICD Section in the field of Dental Aid programs.

Fellows' own presentations as "Table Clinics" of current Dental Aid and Teaching Projects in the session of the 'Open Forum' will hopefully lead to an improvement and stimulating progress in our plans and activities in Continuing Educational & Dental Aid Programs.

The Scientific Committee.
